Agricultural Systems **25** (1987) 331–332

CONTENTS OF VOLUME 25

Number 1

A Stochastic Model to Study Breeding Schemes in a Small Pig Population . 1
G. de Roo (The Netherlands)

The Effectiveness of Silage Inoculants: A Systems Approach 27
R. E. Pitt and R. Y. Leibensperger (USA)

A Linear Programming Model of Grassland Management 51
A. G. Conway and L. Killen (Ireland)

Conference Report 73

Book Reviews 79

Shorter Notice 84

Announcement 85

Number 2

The Small Ruminant Market System in Indonesia: A Review 87
H. C. Knipscheer, M. Sabrani, T. D. Soedjana and A. J. De Boer (USA)

The Migrant Igbira Farmers and Food Crop Production in Bendel State, Nigeria 105
G. J. Osemeobo (Nigeria)

A Model for Sericulture and Milk Production 125
R. K. Mehla, R. K. Patel and V. N. Tripathi (India)

Price Formation on the Brisbane, Australia, Market 135
D. G. Mayer, J. E. Holt and D. Schoorl (Australia)

Validation of ALSIM1 (Level 2) Under Michigan Conditions 145
Lucas D. Parsch (USA)

Book Reviews 159

Shorter Notice 163

Agricultural Systems (**25**) (1987)—© Elsevier Applied Science Publishers Ltd, England, 1987.
Printed in Great Britain

Number 3

Optimizing Multiple Cropping Systems: Simulation Studies 165
Y. J. Tsai, J. W. Mishoe and J. W. Jones (USA)

Plant Uptake and Accumulation of Soil Applied Trace Organic Compounds: Theoretical Development 177
E. L. McCoy (USA)

The Borana Pastoral System of Southern Ethiopia 199
Noel J. Cossins (Ethiopia) and Martin Upton (Great Britain)

Economic Thresholds and Reponse to Uncertainty in Weed Control . . . 219
Bruce A. Auld and Clem A. Tisdell (Australia)

A Model for Selective Mechanisation for the Small Farmer 229
Adeyemi Aderoba (Nigeria)

Book Reviews 237

Shorter Notice 241

Number 4

Editorial 243

An Analysis of the Growth Rates of Pasture and Animal Production . . 245
D. A. Charles-Edwards, P. Tow and T. R. Evans (Australia)

Nitrogen and Phosphorus Transfers in a Crop–Livestock System in West Africa 261
J. M. Powell (USA) and M. A. Mohamed-Saleem (Nigeria)

Economics of Simulated Beef-Forage Rotational Grazing Under Weather Uncertainty 279
Lucas D. Parsch and Otto J. Loewer (USA)

GRAZE: A Model of Selective Grazing by Beef Animals 297
O. J. Loewer, K. L. Taul, L. W. Turner, N. Gay and R. Muntifering (USA)

Rapid Rural Appraisal for Generating Approximate Technologies for Peasant Farmers: Some Experiences from Northern Nigeria 311
G. O. I. Abalu, N. M. Fisher and Y. Abdullahi (Nigeria)

Book Reviews 325
